Research Interests

I'm broadly interested in topics related to theoretical computer science, including randomized algorithms, pseudo-randomness, graph theory, etc.

Education

2022 – 2026 (expected)

📖 **Bachelor in Computer Science, University of Science and Technology of China (USTC)**

School of the Gifted Young

GPA: **3.71/4.30**, Average score: **88.3**, Rank **40/210**

Talent Program in Computer Science (Yingcai Class)

Instructor: Prof. Xue Chen

Core Courses: Foundations of Algorithms (100/100), Data Structures (97/100), Introduction to Computer System (Honor, 90/100), Linear Algebra (90/100), Probability Theory and Mathematical Statistics (90/100), Graph Theory (88/100), Mathematical Analysis (88/100)

2021 – 2022

📖 **High school, The Affiliated High School of Peking University Yuanpei Class** (for outstanding students)

Admitted to the School of the Gifted Young of USTC during the first year of high school.

Skills

Languages 📖 TOEFL: 98, GRE: 322+3, CET-6: 629.

Coding 📖 fundamental algorithms & data structures (proficient), C & C++ (familiar)
Outstanding results in competitions including NOI, ICPC Regional Contests & **East Continent Final (2 gold medals)**, USACO and [Codeforces](#).

Research Publications

(None)

Projects

2023.9 – 2024.1

Expansion on regular Graph

Supervisor: Prof. Xue Chen

1. Gained knowledge in probability theory and basic random processes, pseudorandom-objects from books.
2. Conducted a literature research on randomized algorithms and pseudorandomness, with a focus on expansion properties of regular graphs, a crucial topic in the field. Presented research papers and discussions during group meetings.
3. Investigated two approaches for establishing lower bounds on graph expansions: the second eigenvalue method and the girth method. Gained knowledge of their theoretical foundations and limitations.
4. Explored potential avenues for enhancing the girth method to derive stronger lower bounds on graph expansions. Analyzed existing approaches and evaluated the challenges and limitations in improving the methodology.

2022.9 – 2022.12

Course Project: MicroDNN ([Website](#))

1. Independently implemented a lightweight library for DNNs in C++. The library provides various APIs for DNN operations and is easy to use due to its minimal dependencies and high-level encapsulation.
2. Conducted literature research on classic algorithms in Deep Neural Networks (DNN).
3. Evaluated the performance of MicroDNN on multiple datasets, identifying performance bottlenecks in convolution layers and proposing potential optimizations.

Honors and Awards

Scholarships

- 2023.10 **Silver Scholarship.** Awarded by the School of the Gifted Young, University of Science and Technology of China.
- 2022.10 **Talent Program Scholarship,** achieved excellent results in the entrance examination of the University of Science and Technology of China, entered the Talent Program in Computer Science and Technology (Hua Xia), and was awarded the Talent Program Scholarship.
- 2022.9 **Admission Scholarship.** Awarded by the School of the Gifted Young, University of Science and Technology of China.

Competitive programming

- 2024.2 **2430 contest rating** on Codeforces.
- 2024.1 **ranked 24/347** in the USACO 2024 January Contest (platinum division).
- Gold Medal, 14th place** in the 2023 ICPC Asia-East Continent Final Contest.
- 2023.12 **Gold Medal, 6th place** in the 2023 ICPC Asia Hangzhou Regional Contest.
- 2023.10 **Gold Medal, 6th place** in the 2023 ICPC Asia Xian Regional Contest.
- 2023.3 **Gold Medal, 28th place** in the 2022 ICPC Asia-East Continent Final Contest.

Honors and Awards (continued)

- 2023.1  **Gold Medal, 8th place** in the 2022 ICPC Asia Xian Regional Contest.
- 2022.11  **Gold Medal, 27th place** in the 2022 ICPC Asia Shenyang Regional Contest.
- 2022  **Silver Medal**, in the 2022 NOI-CCF Winter Camp.
- 2021  **Bronze Medal**. Entered the Beijing Provincial Team, and was rewarded a bronze medal in the China National Olympiad of Informatics.
- 2020, 2021  **First Prize** in Beijing in the CSP-S and NOIP competitions for two consecutive years, 2020 and 2021.
- 2020  **Silver Medal** in the 2020 Asia-Pacific Informatics Olympiad, China region.

Math

- 2023  **Second Prize** in the National College Student Mathematics Competition, Non-Mathematics Category.

Teaching

- 2024.2 – present  **Teaching Assistant**, Foundations of Algorithms, USTC. Designed lab assignments and conducted weekly office hours.
- 2024.1 – 2024.2  Competition Coach, TopsCoding, Winter 2024 Coding Course. Presented tutorials on string algorithms and number theory.

Activities

- 2022.9 – present  **Vice President, Computer Programming Club**, University of Science and Technology of China (USTC) and **Member, Publicity Department, Student Union of the School of the Gifted Young**, USTC. Effectively managed and executed related responsibilities.
- 2022 – 2023  Achieved third place in the USTC Freshman Eaglet Cup Football Tournament (2022). Ranked in the top 20 out of 300 participants in the November 2023 short-distance marathon at USTC.
- 2018  Youth Reporter for Beijing Science and Technology News and China Central Television (CCTV), and Youth Editor for 'Guokr Junior'. Conducted interviews, wrote and published several articles, participated in recording various CCTV programs, and reviewed and edited scientific articles.
